PROJECTS

DASH (Group Project)
📅 08/2023 - 12/2023

- Conceptualized, designed, and implemented an innovative online platform facilitating seamless shopping experiences alongside a charitable initiative for cloth donation.
- Implemented a user authentication system to enhance website security and provide personalized shopping experiences.

Personalized Portfolio
📅 02/2023 - 04/2023

- Designed and developed a personalized portfolio website from scratch, incorporating modern design principles and user experience best practices.
- Utilized HTML, CSS and JavaScript to create a visually appealing and responsive website that showcases my skills.

Attendance Systems with Face Recognition
📅 05/2022 - 08/2022

- Integrated the facial recognition system with existing attendance tracking infrastructure, streamlining the process and eliminating manual data entry errors.
